SKILLS

Frontend: HTML, CSS, Bootstrap, JavaScript, React.js

Backend: Python, Node.js

Databases: SQLite

PROJECTS

Tourism Website (tslocaltourism.ccbp.tech)

Built a captivating online resource where users can access multimedia content and insightful details about popular travel spots.

- Constructed a mobile-adaptive layout using a combination of HTML elements and CSS3 properties like background, flex, and CSS box model attributes.
- Integrated destination-specific image carousels and immersive virtual tour videos with Bootstrap components.

Technologies used: HTML, CSS, Bootstrap

Todos Application (easytodolist.ccbp.tech)

Developed persistent todo application with CRUD operations to track list of tasks

- Displayed list of todos with HTML list elements, styled todo list using CSS, Bootstrap
- Implemented todo crud operations by using JavaScript event listeners and updated UI dynamically by using JavaScript DOM operations.
- Used Arrays, Objects and their methods during todolist CRUD Operations, Persisted todo list state on page reloads using local storage methods.

Technologies used: HTML, CSS, JS, Bootstrap

Wikipedia Search Application (easywikisearch.ccbp.tech)

Developed custom wikipedia search application where user can search and view curated results and can see detailed explanation in wikipedia by clicking on the specific result

• Displayed list of search results with HTML list elements with hyperlink as url, styled list using CSS, Bootstrap and implemented responsiveness using Flex properties and CSS Box model.

• Fetched search results from server asynchronously using fetch GET HTTP API call. When a user clicks on a particular result, opens the website in a new tab by using the target attribute of the anchor tag in HTML.

Technologies used: HTML, CSS, JS, REST API Calls, Bootstrap

Online News Paper (https://madhusudhan675.github.io/news-echannel/)

Developed an online newspaper channel offering a seamless reading experience with daily updates. Implemented user-friendly features such as customizable layouts and interactive content. Enhanced user engagement through personalized reading lists and social media integration. providing premium and ad-free content options.

Technologies used: HTML, CSS, JavaScript, Bootstrap

CERTIFICATES

Web Developer Intern at Encryptix

Currently building and improving secure web applications. Working on both front-end and back-end development, and assisting in fixing bugs and optimizing performance.

Junior Software Developer at NI-MSME

Certainly! Here's a sentence you can use to describe your certification on your resume: Completed an intensive full stack development course as a Junior Software Developer at NI-MSME, mastering key technologies including HTML, CSS, JavaScript, React, Node.js, and MongoDB, and gaining hands-on experience by developing and deploying multiple scalable and responsive web applications.

ACHIEVEMENTS

Build More than 5 Websites

Successfully built and deployed more than 5 websites
